## **Connection Diagram**

## **Application**

- 1. Back-up UPS system for industrial, commercial, household,etc
- 2. Mobile power and standby power for areas that are lack of utility.
- 3. Off-grid solar & wind power system

### **Features**

- 1. pure sine wave output, full power
- 2. CPU management and control, modular design
- 3. LCD display,can visually display various parameters
- 4. Multifunction design, can set a variety of working mode

- 5. External battery connection, convenient to expand use time and back-up power time; user can connect as many batteries as needed
- 6. With super load carrying ability and high load capacity, this series of inverters can not only drive resistance load; but also various kinds of inductive loads, such as motor, air conditioner, electric drills, fluorescent lamp, gas lamp, etc. It can drive almost any kinds of load
- 7. Low frequency circuit design, good system stability, low failure rate and long service life (under proper operation, it may be as long as 5 years)
- 8. Perfect protection: low voltage protection, over voltage protection, overheat protection, short-circuit protection, overloads protection; alarm alert
- 9. CE / EMC / LVD/ RoHS Approvals
- 10. Two years warranty, life-long technical supports

#### **Parameters**
