Feature:

- 1.MPPT charge mode, conversion efficiency upto 99%
- 2.12V / 24V / 48V system auto recognize
- 3. Wide range of PV input with max. Is DC150V.
- 4. Journal function, Save function set, Date, time, Generating capacity and so on.
- 5.Charge mode: three stages (fast charge, constant charge, floating charge) .It prolongs service life of the batteries.
- 6.Discharge mode: ON mode, OFF mode, double time control mode, PV voltage control mode, PV voltage plus time delay mode and so on.
- 7.Recommended battery types:. Sealed lead acid, vented, gel, NiCd battery Other types of the batteries can also be defined.
- 8.Most information could be provide by LCD and LED like: model number, PV input voltage, battery type, battery voltage, charging current, charging power, working status and so on Also customer information like company name, website and logo can be. added into Solar Eagle software.
- 9.RS232 and LAN communication port. IP and Gate address could be user define it satisfy global area. And communication protocol can be provided to help customer manage all information.
- 10. The upper computer software is displayed in 11 languages, it could show work status and set parameters of the discharge system.
- 11. With intelligent design, the device can be upgraded online lifelong.
- 12.Adopting the well-known brand components, the devices can suffer the temperature not less than 105 °C .The service life is designed to use for 10 years in theory.
- 12. Compliance with the 2002 OF TC environment protecting der
- 13.Compliance with the 2002 95 EC environment protecting demand, does not include the Cadmium, hydride and fluoride etc material
- 14.Equipment integrity: controller, CD-ROM (microcomputer software), communication wire, temperature sensing wire, Anderson terminals
- 15.CE, ROHS certifications approved.
- 16.2 years warranty. And 3 ~ 10 years extended warranty service also can be provided.

Technical Specification:

Model: SMART2-40A/50A/60A -series		40A	<u>50A</u>	60A		
Charge Mode	Maximum Power	Point Tracking		<u>.</u>		
Method	3 stages: fast cha	arge(MPPT),constant	voltage, floating charge			
System Type	DC12V/24V/48V	Automatic recogniti	on			
	12V system	DC9V~DC15V				
System Voltage	24V system	DC18V~DC30V				
	48Vsystem	DC36V~DC60V

Note: We provide OEM and ODM service. The 36V / 72V / 96V model also can be custom made for you.

Product Parts:

NO.	Quantity	Description
1	1 unit	Charge controller
2	2 pc	Terminals
3 2 pc	Gallow pulley	
	(For install the controller on the wall)	
4	4 4 set	Screw
		(For install the controller on the wall)
5	1 pc	232 turn to RJ45 communication cable
6	1 pc	User manual
7	1 pc	Temperature sensing wire
8	2 pc	Fuse wire
	50000	

Upper Computer Software and testing Software:

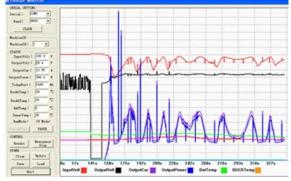

The interface of upper computer software working state

The interface of upper computer software parameter setting state

Upper computer software on/off interface and generating capacity record clean interface

The interface of test software working state

Note:

- 1) Attachment is upper computer software which is suitable for all computer systems.
- 2) Trafficker will provide neutral upper computer software and CD, or with customer's logo.
- 3) WIN7, IN8 system user, please log in as administrator. More details please check the manual.

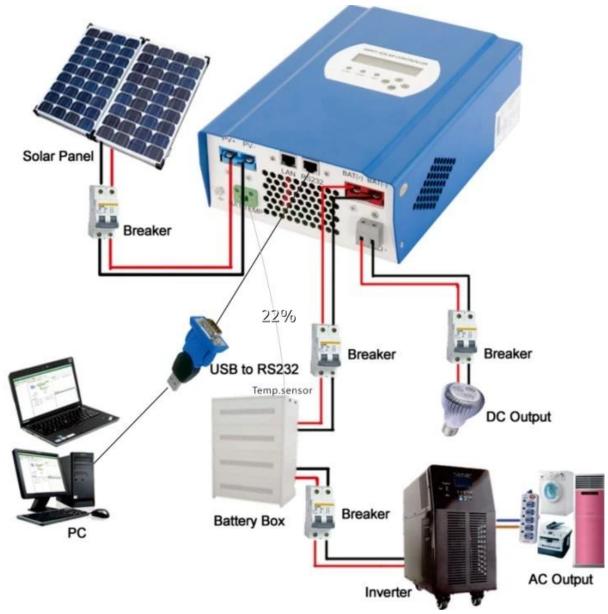

Information on Display and Settable Parameters:

Note:

- 1) All above information is a sample which is the working state of MPPT in sometime In different working stage the parameters will change like work mode, charge current, charge mode, charge power and so on;. In the fault mode it will show fault mode;
- 2) If all above dates show means this could change; the details please check the manual.

Installation

Note:

- 1) Above is off-grid solar system connection picture;
- 2) Other ways for PC-communication, please check the manul for details;

Other Parameters:

Please check design brief, technical documents, product manual for more details.
